Index to Volume 67

	Issue	Page
2.5-D inversion of frequency-domain electromagnetic data generated by a grounded-wire source, Y. Mitsuhata, T. Uchida, and H. Amano	6	1753
3-D eikonal solvers: First-arrival traveltimes, S. Kim	4	1225
3-D imaging using higher order fast marching traveltimes, A. M. Popovici and J. A. Sethian	2	604
3-D tomographic static correction, X. Chang, Y. Liu, H. Wang, F. Li, and J. Chen	4	1275
3-D magnetic inversion with data compression and image focusing, O. Portniaguine and M. S. Zhdanov	5	1532
3-D tomographic seismic inversion of a paleochannel system in central New South Wales, Australia, T. Deen and K. Gohl	5	1364
A 3-D resistivity investigation of a contaminated site at Lernacken, Sweden, T. Dahlin, C. Bernstone, and M. H. Loke	6	1692
A generic 1-D imaging method for transient electromagnetic data, N. B. Christensen	2	438
A modeling study of borehole radar for oilfield applications, Y.-H. Chen and M. L. Oristaglio	5	1486
A multimodel method for depth estimation from magnetic data, J. B. Thurston, R. S. Smith, and J.-C. Guillon	2	555
A multioffset vertical seismic profiling experiment for anisotropy analysis and depth imaging, M. G. K. Grech, D. C. Lawton, and S. H. Gray	2	348
A multiscale radar-stratigraphic analysis of fluval aquifer heterogeneity, D. P. Lesmes, S. M. Decker, and D. C. Roy	5	1452
A new approach to offshore drill-bit reverse vertical seismic profiling (RVSP), F. Poletto and G. Dordolo	4	1071
A new approach to depth determination from magnetic anomalies, E.-S. M. Abdelrahman, H. M. El-Araby, T. M. El-Araby, and K. S. Essa	5	1524
A proposed polarity standard for multicomponent seismic data, R. J. Brown, R. R. Stewart, and D. C. Lawton	4	1028
A simple, exact solution for the P-SV wave conversion point via prestack migration, W. A. Schneider, Jr.	5	1634
A stable and efficient approach to inverse Q filtering, Y. Wang	2	657
Abdelrahman, E.-S. M., A new approach to depth determination from magnetic anomalies	5	1524
Accurate interpolation with high-resolution time-variant Radon transforms, D. O. Trad, T. J. Ulrych, and M. D. Sacchi	2	644
Acoustic measurements in unconsolidated sands at low effective pressure and overpressure detection, M. Prasad	2	405
Acoustic velocity of seismic-while-drilling (SWD) borehole guided waves, F. Poletto, J. M. Carcione, M. Lovo, and F. Miranda	3	921
Adler, F., Kirchhoff image propagation	1	126
Adriansyah, A., Analysis and interpretation of seismic data from thin reservoirs: Northwest Java Basin, Indonesia	1	14
Airborne gravity measurements over mountainous areas by using a LaCoste & Romberg air-sea gravity meter, J. Verdun, R. Bayer, É. E. Klingelé, M. Cocard, A. Geiger, and M. E. Halliday	3	807
Airborne TEM surveying with a SQUID magnetometer sensor, J. B. Lee, D. L. Dart, R. J. Turner, M. A. Downey, A. Maddever, G. Panjkovic, C. P. Foley, K. E. Leslie, R. Binks, C. Lewis, and W. Murray	2	468
Ait-Ettajer, T., see Thore, P.	3	840

Amano, H., see Mitsuhata, Y.	6	1753
Amundsen, L., see Ikelle, L. T.	4	1293
Amundsen, L., see Osen, A.	6	1983
An adaptive finite-difference method for traveltimes and amplitudes, J. Qian and W. W. Symes	1	167
An approximation for the Xu-White velocity model, R. G. Keys and S. Xu	5	1406
An integral equation representation of wide-bank electromagnetic scattering by thin sheets, Y. Song, H. J. Kim, and K. H. Lee	3	746
An optimization of the inverse scattering multiple attenuation method for OBS and VC data, L. T. Ikelle, L. Amundsen, and S. Yoo	4	1293
Analysis and interpretation of seismic data from thin reservoirs: Northwest Java Basin, Indonesia, A. Adriansyah and G. A. McMechan	1	14
Analyzing the effectiveness of receiver arrays for multicomponent seismic exploration, B. H. Hoffe, G. F. Margrave, R. R. Stewart, D. S. Foltinek, H. C. Bland, and P. M. Manning	6	1853
Announcements	3	1008
